CRIMINOGENIC NEEDS NARRATIVE SUMMARY

ReEntry Substance Abuse

ReEntry Substance Abuse Scale Score: Highly Probable

provided responses suggesting a high likelihood of drug or alcohol problems. Thus, substance abuse treatment and aftercare intervention may be considered upon release. For further verification a more in-depth substance abuse assessment may also be necessary to determine appropriate level of treatment.

ReEntry Substance Abuse Statement:

was unclear about committing any offenses while high/drunk. He reported having prior drug charges/convictions. rodney reported having a history of drug problems and indicated a history of alcohol problems. reported having had prior treatments for drug/alcohol abuse and did not indicate any history of failed drug/UA tests.

Treatment Implications:

For inmates scoring probable or highly probable it is advisable to assess the extent of previous treatments, current attitudes to treatment, and the responsivity of the inmate. A more specialized substance abuse assessment inventory (i.e. ASI, SASSI, etc) may also useful to determine the appropriate level of treatment upon release. Relapse prevention plans may be critical for such inmates upon release to the community.

Comments:

There are currently no comments on this narrative.

Vocation/Educational

ReEntry Employment Expectations Scale Score: Unlikely

The Vocational and Education Scale score suggests Mr. rodney bailey may not need vocational or educational treatment intervention.

ReEntry Employment Expectations Statement:

██████████ appeared to be job ready (skilled, semi-skilled, or professionally skilled). ██████████ has no employment plan. ██████████ reported feeling it will not be difficult to find a steady job. He reported that it will not be difficult to learn better skills to get a job. rodney did not think that it would be difficult to keep a job once he has found one.

Treatment Implications:**Comments:**

There are currently no comments on this narrative.

Financial

ReEntry Financial Scale Score: Probable

██████████ self reported information suggests that he is likely to have financial problems on release.

ReEntry Financial Statement:

██████████ suggested that money will not be a problem when he is released. He indicated that it will not be difficult to manage his money and indicated that it will not be difficult to have enough money to get by and that supporting himself financially without using illegal ways to get money will not be difficult. ██████████

Treatment Implications:

Scores of probable or highly probable typically suggest a need to address the inmates financial plans prior to release. Developing a realistic budget and money management skills as well as employability skills and a job seeking plan may be addressed either prior to and after release.
