Dear Mr. Mondale:

All your comendable issues you are campaigning for, to help the poor, aged and sick, will mean naught if ~~they~~ <sup>(we)</sup> become corpses through a nuclear holocaust.

Be it a few days, a year, ten years, twenty years hence or longer, sooner or later a computer error, a human misjudgement, a malfunction or a madman will trigger a nuclear holocaust. *Armageddon.*

When this happens, the only chance to save, even a shade, of our civilization, even on a temporary basis, is a protective umbrella of anti missile missiles. Russia has been perfecting these for twenty years. The umbrella may not work or may partially work. If truly polished and perfected, it could be eventually 99% effective..

*In Russia,* People do not have the freedom we have, ~~in Russia.~~ But what good is this freedom in the middle of a nuclear holocaust? We need perfection of anti-missile missiles.

We do not need more nuclear warheads.. We have too many already. Our cities can be destroyed a thousand times over. Our military spending should go for the perfection of an anti-missile umbrella system.

The budget should be balanced by higher taxes to the rich, the corporations, and the complete cessation of creating more nuclear warheads...but the perfection of a truly sophisticated anti-missile umbrella system. *must be priority number one.*

All your fair, moral, humanitarian, commendable and votable issues will do naught to help a western world comprised of nuclear corpses.

Remember Pearl Harbor and work to protect us as much as humanly possible from the ineventable holocaust which will eventually come as sure as humans and computers err.

We were intelligent enough to create the bomb. Why can't our scientists create an antidote..an anti-nuclear umbrella? Let us not stick our head in the sand.. Let us act and pray there is still time.

The greatest nuclear freeze or agreement in the world cannot protect us against madmen or human and computer error.

You are raising and promoting many splendid issues, but you are not working to prevent the suicide of the human race. Every other issue pales before this!

Please advocate the umbrella, so when the ineventable rain comes, we have something to grasp..a shred of hope.

I despise Reagan's anti-poor, make the rich wealthier policies...and his war risk promotion by spending more and more millions to make the final destruction even more final. But even though we are twenty years late and behind, he is advocating sane issue at the same time he is bomb building.. that is bomb neutralizing through space interception.

Please, Mr. Mondale, in your program, advocate the most important program of all, the salvation of civilization via a multi-million dollar program to perfect an umbrella anti missile defense. It is NOT aggressive or military to save the world from destruction.

Pleadingly,
