FIGHTING FOR  
YOUR FUTURE

# THE MORE YOU THINK ABOUT THE ISSUES THE MORE YOU'LL AGREE

## THE ECONOMY

We Americans face a budget deficit of over 200,000,000,000 dollars. Business bankruptcies are the highest since the 1930's. Under the Reagan administration, unemployment reached the highest point since the start of World War II.

This November you have a choice. Ronald Reagan has borrowed America's future to pay for today. He has given tax breaks to the rich and cut funding for education, health care, job training, and food and nutrition programs for women, infants and school children.

Mondale realizes that we cannot pay for today by borrowing from our children. That's why he is committed to cutting the Reagan deficits by two-thirds.

### MONDALE WILL

- enact tough, comprehensive health care cost containment
- close tax loopholes that benefit the rich
- institute a program for retraining workers displaced by technological change

## DEFENSE SPENDING

America needs a strong defense. But we can't buy security by just throwing money at it. After nearly four years and \$632 billion of Ronald Reagan's military build-up, there are fewer Army, Air Force and Navy aircraft units certified as ready for combat. The Pentagon has paid \$435 for a hammer, \$9,606 for a wrench worth 12 cents, and \$7,417 for an antenna motor pin worth about two cents.

With Reagan's Star Wars defense proposal and 279 American deaths in Lebanon, are we really more secure than we were four years ago?

Mondale knows a President must make hard choices.

### MONDALE WILL

- support stronger conventional forces, but oppose

Reagan's budget priorities which jeopardize readiness, operations and maintenance

- support a strong deterrent, but oppose poison nerve gas
- support the Stealth bomber, but oppose the B-1 which will be obsolete the day it's deployed

## AN AMERICA FOR THE PEOPLE

America needs a President who will fight for the people. The Mondale/Ferraro team understands what it's like to raise a family in America today. As a boy growing up in Minnesota, Walter Mondale lived America's family values. He learned about the importance of education to get ahead and of America's commitment to equality and freedom. He was taught the need to show compassion, to speak honestly, to offer others an opportunity to thrive. Mondale and Ferraro know the President must work to give everyone a chance to make tomorrow's America better for our children.

Mondale will stand up for Americans and our families.

### MONDALE WILL

- strengthen programs to rebuild neighborhoods
- make farm credit serve family farmers, not speculators
- initiate a national effort to reduce the health and genetic dangers posed by toxic chemicals and wastes
- enact tough new fair housing provisions that include protection for families with children
- renew the nation's fight against hunger and strengthen the school lunch program
- renew our commitment to educational excellence and support passage of the ERA

## THE ENVIRONMENT

The last four years of Ronald Reagan, James Watt, and Anne Gorsuch Burford have ravaged America's environment and with it, our future.

The Reagan Administration has cleaned up only 6 of 546 priority toxic waste dumps in three years and cut enforcement against strip mine violations by 62 percent.

Mondale knows better. He knows that each generation has the same basic responsibility: to leave its children a better world than the one they inherited.

### MONDALE WILL

- fully enforce all environmental laws and regulations
- move to cut emission of sulfur dioxide (which produces acid rain) by 50 percent

- launch a program to help farmers conserve topsoil
- use the Superfund to clean up sewage discharges from our cities and get toxic pollutants out of our air and water

## PEACE

When it comes to negotiating for peace, there are no Republicans and no Democrats, just Americans. That's why Carter and Ford and Nixon and Johnson and Kennedy all completed agreements with the Soviet Union. Ronald Reagan has failed to achieve any nuclear arms reduction agreement whatsoever.

For Mondale, peace is more than just an election-year slogan.

### MONDALE WILL

- begin negotiations for a mutual and verifiable nuclear freeze
- seek deeper cuts in nuclear arsenals within the SALT II framework
- work for a verifiable ban on anti-satellite weapons
- move to establish nuclear risk reduction centers in Washington and Moscow
