Mrs. Geraldine Ferraro
Democracy Party
Washington D.C.
USA

Dear Mrs. Ferraro,

I kindly ask you to take notice of the attached letters.

In Mr. President Reagan's imagination he is chosen by God himself to be the leader of the good ones in the, as he thinks, soon coming battle of Harmagedon, that decisive battle between good and evil before doomsday. (As you may be remember Reagan said according thoughts on 18 October, 1983, to Mr. Thomas Dine, the manager of a commitee for good relationships between Israel and USA)

"I have always been convinced that when planning the creation of the world it had been God's will to place this nation between two oceans, in order to be sought and found by those who are marked by outstanding courage and love of freedom." (President Reagan in Santa Barbara in his message to Independence Day on 4th July, 1984)

Please keep fighting against such erroneous and dangerous crusaders' thinking.

Good luck to you for the elections. Please give my regards with the best wishes in this sense to Mr. Mondale. All the best for him also for the second debate on TV with President Reagan.

Yours sincerely

PS: More than interesting are also the connections between Reagan's government staff and mafiosi, the undoubted top leaders of the money-makers at any price. (Just for example think of the Minister of Labour, Raymond Donavan, who now is on trial.)

Dear Mr. Newmann:

On the occasion of the MULTILATERAL ENVIRONMENTAL CONFERENCE in MUNICH of June 24 to 27, 1984, I am enclosing an Open Letter of which I kindly ask you to take notice.

You are a bright spot in the chauvinistic U.S.A. of today.

Thanks god in the United States there are also people like you. People who don't agree with the atomic armament's madness and Reagan's whole military power politics (which is also one of the most significant and important pillars of Fascism). People who also don't agree with Reagan's social and economic politics: who don't agree with all that politics which is pursued in favor of the rich and mighty to the disadvantage of the poor people inside of your country and even more of the countries of the Third World. And this policy is presented with an unbelievable hypocritical missionary eagerness, which pretends fighting for freedom, justice and human rights, which pretends just fighting against the evil, the center of which President Reagan claims to be the Soviet Union.

In reality is this mainly a fight in favor of the interests of the anyway already well off and of the reckless and unscrupulous businessmakers at any price: a fight for the freedom of them in managing their business as they want - independent of the question because of their fault many other people and nature have to suffer or not. So the most brutal dictators for example in South America are supported by the U.S.A. as long as they are governing according to the pure material profit interests and strategical intentions of the United States.

What a blasphemy is it, that this kind of politics is being sold in the name of Jesus Christ, who urged the mankind to help each other, being regardful, to stop mean and brutal actions and dancing around the Golden Calf (which meanwhile has become to a dance on a volcano).

Hitler wanted a big, strong Germany. "Deutschland über alles." He tried to reach this aim by military power.

What does the Republican Party want?: a big, strong America by military power. "Therefore its army must be the strongest in the world." There isn't any empire of the evil. Like Reagan imagines. Rather the evil is flowing out of such ideas and men.
Be assured that I refuse communist systems because of their lack of freedom (on the first place freedom of thought and of the press), democratic decisions and the non-compliance with very basically human rights.

But I'm not one-eyed and I realize also the partly huge inhumane and destroying effects of the capitalistic system. I think that at least it must be further limited, if we don't want to end in a big catastrophe, if we want more humanity.

In many areas we have to get rid of growth policy towards recycling policy. We should get rid of the believe, that endless growth policy is possible and could bring us the happiness we all are looking for.

Finally let me express my warmest sympathy for your engagement in helping less succesful and less stronger people, for example with the profit of your soupsand sauces selling company.

Yours truly

Health, love and also enough money!
OPEN LETTER
To all participants of the
MULTILATERAL ENVIRONMENTAL CONFERENCE MUNICH

Munich, June 1984

Dear Politicians:

Unfortunately I have to realize that many of you, through their economic, transport, settlement, energy and educational policy, are making themselves guilty of the continuously and by now without doubt consciously perpetrated CRIME against the HEALTH of mankind and nature.

All those, for example, who still refuse to immediately introduce in the EC countries EXHAUST GAS CATALYSTS and MORE STRINGENT EXHAUST GAS LIMITS; who rather accept that measures requiring immediate execution be put into force by 1995!, believe it or not.

With this they break their OATH to AVERT any HARM FROM THE PEOPLE.

They are violating the most fundamental HUMAN RIGHT to LIFE and PHYSICAL INTACTNESS and inviting RESISTANCE as a reaction of SELF-DEFENSE.

Maintenance of the NATURAL BASIS OF EXISTENCE is more vital than ECONOMIC GROWTH.

In affluent societies even a RESTRICTION OF CONSUMPTION is therefore justified, if necessary.

The manufacturing of PRODUCTS which threaten to DESTROY the natural basis of existence and all our LIVES must be further LIMITED or PROHIBITED.

In view of the CREEPING ENVIRONMENTAL DISASTER a further PREJUDICE of the individual's freedom of decision concerning the USE and SELECTION of certain TRANSPORT MEANS must no longer remain a taboo (i.e. stop the development of individual car and air traffic in favor of public mass transportation, general speed limit, shifting of transport of non-perishable goods from road to rail).
It is necessary to break with the predominant PROFITABILITY and COMFORT consciousness.

What is the use on the long run of the closest and most harmonious cooperation between individual states if it is based on MADNESS of NUCLEAR WEAPONS, ECONOMIC GROWTH AT ANY PRICE, PROFIT – but also on the reckless STRIVING FOR INDIVIDUALISM AT ANY COST (an airplane of one's own for everybody to increase comfort and personal independence?) and of the ensuing progressive and already life threatening DESTRUCTION OF THE ENVIRONMENT?

What we have to strive for - "by necessity" never experienced in the History of Mankind - is a Europe and a world of REASON, MODESTY and SOCIAL BALANCE!

If we do not all want to perish.

ROUSE THE PEOPLE INSTEAD OF CALMING THEM!

Trusting in you and hoping that reason will prevail after all faithfully

Mr. Ex-President
Jimmy Carter
Plains/Georgia
U.S.A.

16. October, 1984

Dear Mr. Carter,

In LA on July 1979 I was listening to you on TV in a speech to the American people, when nearly all the Californians watching with me expressed, they absolutely wanted Reagan as next president. Some of them even called for bombing Teheran to free the hostages! Trying to defend your good intentions I was left quite alone and I felt sorry for the future.

For me dismay ing, although not very surprising, that so many Americans are intending to vote for Reagan as President for a second time. And that despite of having seen for four
years now the dangerous and unsocial results of his unjust and very aggressive imperialistic policy. A policy inspired by the inhuman and unchristian Wild West and jungle philosophy of the "right" of the stronger (i.e. very often of the more brutal one).

Jesus Christ preached, God's will is that love, understanding, goodness and forgiving shall rule the human living together and not the crude and unmerciful law of jungle.

In my opinion the most important progress in the history of mankind is the gradual overcoming of the club-law of the prairie. That, or more precise, the possibility for that, differ human beings from the animal world.

Johann Wolfgang von Goethe wrote: "Edel sei der Mensch, hilfreich und gut! Denn das allein unterscheidet ihn von allen Wesen, die wir kennen."

The Wild West-cowboy policy of Reagan and his staff seems to be under the motto "Even more privileges for the rich": "Already due to us being paid by them for such kind of
policy we must help the strong and already mighty and wealthy making higher profits."
At the costs of the weaker and poor people (who in many cases are poor, also because they are "too good" and less unscrupulous). And even at the costs of the environment, although that is very dangerous for their own health, too. This I call money making at any price.

I think, as long as the peoples are proud of conquerors like Napoleon and celebrate hard and cold-hearted "iron ladies and sirs" and as long as in addition to it the peoples admire brutal warriors as heroes and are enthusiastic at national leaders, who are reckless, but for their own people materially successful (for example with the conquest of territories) and as long as the big majority of people base their electoral decisions mainly on their present or the outlooks for their future material standard of living, so long fighters for human rights and other ideals like you will and must fail in gaining or keeping the majority.
But I'm sure, in God's eyes they won't fail with that.

I kindly ask you to take notice also of the enclosed letters.

With all my best wishes for you and your family, health, love and peace, money

yours truly

P.S. "Private" American mercenaries are fighting against "communists?" in Latin America having Reagan's good-will. The CIA recommends to hire killers in the same fight. And that all in the name of democracy, justice and human rights! In a fight against people who refuse unsocial and inhuman dictatorships and nothing want more than the realization of the most basic human rights: who want enough to eat and a more human, more social and more just society. One of the mercenaries said on TV, "I'm not only doing this job for earning money. I'm also an idealist, who defends the American "ideals"." What a shame!
Estimado Señor Paz:

Me alegro mucho, pero mucho, que en este año un Mexicano recibió el Premio de Paz del Deutschen Buchhandel. De todo mi corazón muchas felicidades para esta homenaje a usted. En su caso nombradamente est omne.

Yo comparto con Ud. su opinión que hay una fuerte correlación entre democracia, derechos humanos y el paz. Pero respecto a la democracia hay que añadir, como el Ex-Presidente Carter recién lo expresó: "Un pueblo, que solamente tiene la alternativa, o democracia (pero morirse de hambre y libertad verdadera sólo para algunos pocos muy fuertes) o al otro lado pan sin democracia, prefiere el pan."

Vd. seguramente está conforme conmigo que la colosal e incre- ciendo diferencia económica entre los estados industrializados y los países en vías de desarrollo, entre ellos que viven de sobra y los otros que se mueren de hambre, aumenta más y más el peligro de guerra tanto como la progresión del armamento alto constante. Nuevamente sobreviene, que también la destrucción del ambiente pueda causar conflictos violentos.

Me permita de enviarle a Ud. para su conocimiento algunas cartas que escribí en los asuntos destrucción de los fundamentos naturales de la vida y la política de la locura del armamento atómico.

¡Vivan los motivos y intenciones de la Revolución Mexicana! "No es la inteligencia, que es decisivo, pero eso que la dirige: corazón y carácter." (Fiodor Dostojewskij, 11 de Nov. de 1826)

Usted tiene de todo (pero la mayoría de los políticos por desgracia no).

Por haber vivido un año en México por siempre me acuerdo de su patria con mucho cariño,

afectuoso

¡Salud, amor y paz, dinero!
