"New Law School Ready by 1959:" Says Director of Development Fund

The new Fordham University Law School, the first construction under the Lincoln Square Project, should be completed by January, 1959, according to Father John Furniss, S.J., Director of the Development Fund.

In a letter to all Special Gifts Committees, organized to solicit funds for the development, Father Furniss explains that "nothing should be automatic. It is impossible to give an exact timetable; but this is feasible: January, 1959 - transfer of the campus; April, 1959 - Law School completed ... June, 1959 - Lincoln Square project completed."

Work Alone: Third Topic For Seniors

On November 2nd, Edward B. Schuckin, President of the Law School Alumni Association, spoke at the last of a series of lectures designed to acquaint senior students with the problems confronting them in the future. On the two preceding Fridays, the lecturers were James V. Hayes and John R. Buck. Mr. Schuckin's lecture was "Help-Advocate-Advocate of a Fine Profession." His point was that a sole practitioner delivers more self reliance and professional competence by having his own clients. He stressed the benefits of direct contact with his clients, asserting that such a procedure is at once more stimulating and more rewarding.

Dear Editor,

I am writing to express my concern about the recent increase in traffic on the local roads. The constant honking and loud music from many vehicles makes it difficult for pedestrians to navigate safely. Moreover, the increased traffic has led to longer waiting times at traffic lights, which in turn has caused frustration among drivers.

I would like to suggest that the city consider implementing traffic calming measures in the area. This could include the installation of speed bumps, the restriction of certain types of vehicles, and the allocation of dedicated lanes for public transportation.

I believe that these measures would not only improve the safety and quality of life for residents but also reduce the environmental impact of the area. I urge the city to consider my suggestions and take action to address this issue.

Sincerely,

Intramural Sports Spurred by Frosh

In a special meeting held on October 10, First-Year Frosh's intramural sports league was announced. The league will feature teams from the various classes and will provide an opportunity for students to compete against each other in a variety of sports.

Some members of the class who favor tennis and golf, expressed a desire to have more competitive options in these sports, while others felt that the existing intramural sports were not as appealing. As a result, the idea of a new intramural league gained traction, and a majority of the school's students voted in favor of the proposal.

The league's organizing committee will be responsible for selecting the sports and formats that will be included in the league. They will also be responsible for recruiting teams and facilitating the scheduling of games. The goal is to create a fun and competitive environment for all students who are interested in participating.
